2015 Antenna and Collocation Exclusions

Collocations on utility structures, including utility poles and electric transmission towers, may be mounted without undergoing Section 106 Review, unless:

(1) Deployment exceeds size limitations when measured with other wireless deployments on the same structure.

(2) There will be new ground disturbance.

(3) The collocation will be placed on a structure :

   (a) within the boundary of , or within 250 feet of the boundary of, a historic district.

   (b) that is a designated National Historic Landmark or is listed/eligible for the National Register of Historic Places (NRHP).

   (c) the collocation is subject to a pending complaint of alleged adverse effect on historic properties.

Collocations on buildings and any other non-tower structure, may be mounted without under-going Section 106 Review, unless:

(1) There is not an existing antenna on the build-ing or structure.

(2) The collocation does not meet requirements related to visibility and proximity to an ex-isting antenna.

(3) There will be new ground disturbance.

(4) The collocation will be placed on a structure :

   (a) within the boundary of, or within 250 feet of the boundary of, a historic district.

   (b) that is a designated National Historic Landmark or is listed/eligible for the NRHP.

   (c) the collocation is subject to a pending complaint of alleged adverse effect on historic properties.

Antenna may be mounted without undergoing Section 106 Review, unless:

(1) They will be in place for more than 60 days.

(2) They require notice of construction to the Federal Aviation Administration (FAA).

(3) Marking or lighting under FAA regulations are required.

(4) They will be more than 200 feet above the ground

(5) More than minimal ground excavation is required.
