The History of Montana in 101 Objects
Book talk with the authors

MHS's newest publication, *A History of Montana in 101 Objects*, showcases its remarkable collection of artifacts. Since 1865, the Society has pursued its mission to collect and protect items of significance to Montana's past for the pleasure and education of residents and visitors. This assemblage of objects and interpretive essays draws attention to the diversity of experiences—the triumphs and the sorrows, the everyday struggles and joys—that made Montana.
